PROFESSIONAL SUMMARY

I'm a Full Stack Developer focused on building scalable, responsive, and high-performance web applications. I create clean, accessible, and user-friendly interfaces, turning complex requirements into intuitive digital experiences. Passionate about modern web technologies and best UI practices, I believe great frontend development is about solving problems and delivering meaningful user interactions.

WORK EXPERIENCES

Full Stack Developer | Full-time

Feb 2025 - Present

Way2Reach (Vesio Energy Pvt Ltd)

On-site • Gandhinagar, India

- Developed and maintained scalable B2B procurement applications using React.js, Next.js, TypeScript, Node.js, Express.js, MongoDB, and REST APIs.
- Built end-to-end procurement workflows covering RFQ, quotation, vendor management, purchase orders, invoices, payments, and document management.
- Created role-based workflows for Buyers, Sellers, Admins, and EPCs, implementing complex business rules, authentication, and authorization.
- Designed reusable frontend components and backend services for complex dashboards, forms, workflows, and data-driven applications.
- Developed and integrated RESTful APIs using Node.js and Express.js, including business logic, validation, authentication, and database operations.
- Managed MongoDB data models, queries, relationships, and backend data flows for marketplace features.
- Enhanced application performance, scalability, and maintainability across frontend, backend, API, and database layers.
- Troubleshoot and resolved production issues across React, Next.js, Node.js, APIs, and MongoDB while delivering new business features.
- Collaborated with cross-functional teams to convert business requirements into scalable, production-ready full-stack solutions.

Technologies / Skills Used : React.js, Next.js, TypeScript, Node.js, Express.js, MongoDB, REST APIs, Tailwind CSS

SKILLS

Frontend Development :	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, React Hook Form, TanStack Query
Backend Development :	Node.js, Express, REST APIs, Next.js API Routes, JWT Authentication, Backend Business Logic
Database :	MongoDB, MySQL, Prisma
Development Tools :	Git, GitHub, Postman, Vercel
Languages :	English, Hindi

PROJECTS

Kitora – Free Online Developer & AI Tools | 🤖

May 2026 - Jul 2026

- Built reusable tool architecture with browser-based processing and API-powered AI features for scalable tool development.
- Implemented AI-powered utilities such as code review, website auditing, code analysis, and content generation.
- Developed user authentication, API key management, usage tracking, and a centralized dashboard for managing AI tool usage.
- Optimized the platform for performance and SEO using Next.js, with deployment and production management through Vercel.

DocChase – Client Document Collection | 🤖

Jun 2026 - Jul 2026

- Built a document collection platform for accountants, consultants, and professional service teams to manage client document requests.
- Developed secure document request workflows with shareable links, file uploads, document tracking, and automated reminders.
- Implemented request status tracking to identify pending, submitted, and missing documents from a centralized workspace.
- Designed responsive dashboards for managing clients, document requests, submissions, and collection progress.

PROJECTS

CodeHire AI – AI-Powered Developer Tools | 

Oct 2025 - Dec 2025

- Developed CodeHire AI, a web-based AI tool that assists developers in improving code quality and optimizing resumes for technical job applications.
- Leveraged AI to build code review, bug detection, security and performance analysis modules, and a resume analyzer with ATS scoring, skill gap insights, salary estimation, and personalized cover letter generation.
- Features include support for multiple programming languages, actionable improvement suggestions, and downloadable reports to help users strengthen their development workflow and boost job prospects.

EDUCATIONS

Kadi Sarva Vishwavidyalaya | Gandhinagar, Gujarat
B.Sc. in Computer Science

2023 - 2024
CGPA : 6
